CRUD Based HTTP API

Base api address: <https://api.lunchwith.ai/>

Setup - Create Assets to use in a conversation (this can be done once and reused every time a scene is run).

Scene - The main grouping of assets

Cast (scene dependent) - In a script, these are names associated with dialog

Character - Think of this as the actor that brings a specific personality to the role

Scene

Act 1, scene 4

Scene 4

Synopsis:

While Claudius drinks away the night, Hamlet, Horatio, and Marcellus are visited by the Ghost. It signals to Hamlet. Hamlet's friends try to stop his following the Ghost, but Hamlet will not be held back.

Enter Hamlet, Horatio, and Marcellus.

HAMLET

The air bites shrewdly; it is very cold.

HORATIO

It is (a) nipping and an eager air.

HAMLET What hour now?

Character - Molly

- Background
- Goals / Desires

Scene/Cast Usage

POST /{story_id}/summarize/{cast_id}

- Flag this cast member as needing a summary of this scene. If the cast member will be used in the future this will allow the cast member to remember what happened. This needs to happen *before* the scene is ended.

Character - Steve

- Background
- Goals / Desires

Character - Molly

- Background
- Goals / Desires

Scene/Cast Usage - Dialog

POST /story/{story_id}/get_response_step/{cast_id}

- What does this cast member say? This will generate a response and add a line to the conversation within the context of the *current scene*.

POST /story/{story_id}/post_response/{cast_id}

- If you have a response, like one received from a user in a chat, this will add that text as a line in the conversation within the context of the *current scene*.

Enter Hamlet, Horatio, and Marcellus.

HAMLET

The air bites shrewdly; it is very cold.

HORATIO

It is (a) nipping and an eager air.

HAMLET What hour now?

There have been many different interpretations of Hamlet, with the main character played by David Tennant, Kenneth Branagh, and Sir Laurence Olivier. Each actor brings a different flavor to the role.

Augment

There are times when you need to add additional information to a cast_id. This is usually background information (such as which tarot card was turned) or updated information (Buddy hears something on the shore in the middle of a conversation).
